YOUR Building Blocks for Success

TENNIS CONNECT
COMPONENTS

TennisConnect Components lets you put together just what **YOU** need to grow your business and better serve your customers.

Now, tennis providers have access to affordable and reliable "**building blocks**" so you can customize your website and business with just the features you need. With prices starting as low as $15/month, forget about expensive development costs and worries of "going it alone."

Just pick "only" the functions **YOU** need—online player matching, event enrollment, access to court reservations, group email and more, all in an easy-to-use web-based interface.

TennisConnect Components Features:

- Contact Manager and Find-A Game
- Unlimited Group Email
- eCalendar Program & Event Listings
- Tennis Court Scheduler
- Web Page Editor
- Demo Racquet Center
- String Management Center
- TennisCollect Payment System
- Website Hosting
- AND MORE!!!

TENNIS INDUSTRY ASSOCIATION

TennisConnect Components

$15/month

Contact Manager and Find-A-Game
Stay connected with your members and clients with a secure online database of their contact information. Build distribution lists that target certain customers and create custom reports for data analysis. The Find-A-Game system lets your players find tennis partners online, with their own privacy settings.

$15/month

Group Email
Keeping in touch with your customers—from *any* web browser, at *any* time—has never been easier. Whether in the office, at home or on the road, you can use your own email templates/stationery, or the ones in our "Pick & Click" library, to keep customers informed.

$20/month

eCalendar
Simply fill out an online event form and TennisConnect automatically populates a traditional calendar view *and* generates web pages for each event. Use eCalendar not just for online event publishing, but also for event administration and accepting online enrollments. Mark your events as searchable and be included on tennis partner sites, the "PlayTennis" widget, our PlayTennis Facebook app and more. To accept payments online, add on TennisCollect, Active.com, Paypal, or Google Checkout.

$30/month

Tennis Court Scheduler
Simplify your scheduling by allowing players to view and reserve courts online, or use this feature just for your staff to book court times. Reservation records can be downloaded to Excel for court utilization analysis or to support billing and accounting needs. TennisCollect can be added on to accept immediate payment for courts.

FREE

Web Page Editor
Create and edit web-page content quickly and easily in a point, click, and type format. Log in from anywhere and update your pages at any time. Your pages can be presented "inside" your current website or you can have it open up as a TennisConnect-powered web page. "Included with all components"

$20/month

String Management Center
Now you can easily manage the workflow of your racquet stringing business. String Management Center ensures customer specifications are communicated while at the same time building a historical database of stringing activity. Plus, String Management Center automatically generates restringing reminders to customers.

$15/month

Demo Racquet Center
Broadcast available demos on your website, where consumers can reserve them online. Like the String Management Center, the Demo Racquet Center tracks racquets and customer demo activity.

$35/month

TennisCollect
This pricing, billing, accounts receivable and credit-card processing system is integrated into Contact Manager, eCalendar and Tennis Court Scheduler. Billing functions can support snack bar and pro shop charges, too. Pricing tables ensure flexible pricing rules by member type, day of the week, hour of the day, etc. Recommended for businesses that expect to process $15,000 or more annually online.

FREE

Website Builder
The Website Builder provides a simple yet classic website design, and is included with any TennisConnect component. There is no additional annual fee, but customers are required to purchase a website builder starter kit, including implementation services ($150) from an Authorized Service Provider (ASP).

Related Services:

Hosting - Website Builder – no annual fee, one time ASP starter kit $150

Hosting - Sub Domain & Web Page Editor – no charge.

Hosting - Custom Domain Hosting $10/month - no setup fee (includes full developer FTP access)

Domain Registration (your website name) $15.95/year includes 1 email box @ your domain.

Email Boxes (@your domain name) $3/month per 10 additional email boxes

Support and Enhancements
We ensure that our software functions operate as documented and through our recommended ASP (Authorized Service Provider) Network, you have access to unlimited creative support at competitive rates. All software upgrades and enhancements are available free of charge.

Coming Soon:

- Point of Sale integration with Quickbooks
- Leagues & Ladders
